ABOUT OUR COMPANY

Summary of what we stand for

- Our accomplished leadership brings over 25 years of unparalleled engineering expertise to the forefront, ensuring your success in the global engineering market.
- We are a team of passionate professionals who chose to focus on the bigger goal of making a sustainable planet for every being.
- Team of 70+ professionals working dedicatedly on projects that are in Oil & Gas, Renewable Energy projects & Power Delivery thus doing our bit in developing the infrastructure of a better earth.
- Facilitating our esteemed clientele throughout the United States, Canada, Saudi Arabia, Kuwait, the United Arab Emirates, Oman, and Qatar in their quest to identify and engage top-tier engineering professionals from a global talent pool.

Mission

“Our mission is to preserve our planet and create a sustainable future. We bring together top talents to power crucial projects in renewable energy, power delivery, and oil & gas industries. We're the ideal engineering partner for companies seeking to drive environmental and energy initiatives.”

WHAT WE BRING ON TABLE

01 Speed

It is challenging to find the right talent for projects where time is critical and having a dedicated engineering partner gives a leverage of staying away from hassles of finding the talent and speeds up the delivery of the project.

03 Expertise

Specialized, trained, and experienced engineering consultants working on renewable energy, power delivery, and oil & gas projects to deliver the projects within timeline and maintaining highest levels of quality standards

02 Quality

Over the years, SolveNow has been working with Top 10 Engineering companies in the world and have developed quality standards & processes which have proven to be of the difference when it comes to delivering complex projects within a defined timeline

04 Commitment

We are a highly energetic group focused on building a sustainable planet and pushing the extra mile to contribute our bit to every project that supports our vision.

PROJECTS WE SUPPORT

SOLAR

- Engineers
- Installers
- PV
- Project Managers
- Project Engineers
- Supervisors
- Field Operations
- Residential &
- Commercial Program
- Managers Construction

EV

- Fueling Stations
- Power Transmission
- Designers
- Hydrogen battries

POWER DELIVERY

- Substation
- Protection & Control
- Transmission & Distribution
- Relay

OIL & GAS

- RNG
- LNG
- FLNG
- Modular Structures
- Piping & Facilities
- Electrical Engineer
- Petroleum Engineer
- Chemical Engineer
- Reservoir Engineer
- Instrumentation & Control

Hydrogen

- Hydrogen Electrification
- Process Engineer
- Facilities Engineer
- EHS Engineer

INFORMATION TECHNOLOGY

- Software Engineers
- Project Managers
- Enterprise Architecture
- DevOps
- Cybersecurity
- AI/ML
- RF

NON TECHNICAL ROLES

- Marketing
- Finance
- Accounts
- Documentations
- Technical Writers
- Support Staff
- IT Support
- Database

PERFORMANCE MATRIX

- 40% reduction in Project Cost
- 98% positive feedback from Engineering Managers
- 100+ successfully delivered project across various categories

PERFORMANCE MATRIX

- 97% Client Retention Rate
- 92% contracts expanded into various categories after starting from support on 1 project
- 44% of new business is from references of existing Engineering Managers we work with.

Project Management Services

Discover the unparalleled expertise of SolveNow in Project Management Services. With a proven track record, we have been instrumental in guiding and assisting our clients across diverse industries. Our seasoned team offers comprehensive consultation services and excels in delivering end-to-end design solutions. SolveNow stands as a trusted partner in achieving your project goals, specializing in:

- Power Delivery – Transmission & Distribution Lines, Substations
- Oil & Gas – Pipelines & Facilities Designing
- Solar Installations – Residential, Commercial & Utility Scale
- Battery Storage Systems
- EV Charging Stations

Our commitment to excellence ensures that your projects are not only efficiently managed but also tailored to meet the unique challenges of your industry. Choose SolveNow for a seamless journey from conceptualization to realization, and let us propel your ventures to new heights of success.

OUR PRESENCE

Our team is working across the globe ensuring that our operations hotline is available whenever our clients wants to connect. This is a part of our sustainability plan ensuring that our clients are comfortable working with our engineering teams. Additionally, we have capabilities to support our client as per their working hours across various timezones.

CLIENT TESTIMONIALS

Solar Energy Company, California

" We've been working with SolveNow since 2020. This partnership brought some incredible resources for us. "

Construction Company, Texas

" It was our first time to use a engineering partner. We were blown away by this team. They are a bunch of smart, creative, and professional individuals."

Utilities Company, Florida

" We've always wanted a niche-focused vendor and SolveNow certainly did not disappoint us. They brought some great members to our team."
